

## **AI Technology, Ministry and You**

*Sponsored by*

*Unity Worldwide Ministries Eastern Region and Southeast Region*

*Facilitated by Reverend Kelly Isola*

All the changes in recent years have invited us to take a look at our ethics around cultural shifts and new technologies. These shifts propel us into the GREY ZONE - it's where we live most of the time.

In this webinar we will look briefly at theological ethics and then dive into how AI can reshape our online engagement, help build community, support our creative skills, organization and much more... when we understand it. Artificial Intelligence is a tool of exploration and evolution should we choose to intentionally use it to further our vision and mission.
